

Flood Detector

Introduction

Flooding caused by taps left running unattended, a blocked toilet or a leaking pipe can mean costly repair bills and create potentially dangerous conditions that could result in a slip or fall or damp related health conditions.

Once installed in the bathroom or kitchen, the flood detector provides an early warning of a possible flood situation before it causes extensive damage to carpets, decor or electrical equipment.

Features and Benefits

- Fixed Trigger Device.
- Moisture Bridge Sensor.
- Daily battery self test and low battery reporting.
- Digital Heartbeat.
- Bi-directional TAO technology

Compatibility

Compatible with TAO compatible alarm receivers
